Prodigy Anesthesia Quick Review

History of Anesthesia

Who is credited with the first use of diethyl ether as an anesthetic in 1842?	Although he did not report his findings, Crawford Long is credited with the first use of diethyl ether for surgery in 1842. Horace Wells and Charles Jackson experimented with ether and nitrous oxide, but William Morton demonstrated the use of ether for surgery in Boston in 1846 and claimed most of the fame for its use. *Nagelhout JJ, Plaus K. Nurse Anesthesia. 4th ed. Philadelphia, PA: WB Saunders Company; 2010: 1.*
Who is credited with founding the American Association of Nurse Anesthetists (AANA)?	Agatha Hodgins is credited with forming the AANA in 1931. During her work with surgeon George Crile at Lakeside Hospital in Cleveland, Ohio she pioneered the use of nitrous oxide and oxygen during thyroid surgery. *Nagelhout JJ, Plaus KL. Nurse Anesthesia. 5th ed. St. Louis, MO: Elsevier Saunders Company; 2014: 3.*
Who is known as the 'Mother of Anesthesia'?	Alice Magaw was designated the 'Mother of Anesthesia' by Dr. Charles Mayo. She was employed at St. Mary's Hospital in Rochester, Minnesota. She is known for her careful analysis and publication of anesthetic techniques. In 1906, she published a report summarizing the results of over 14,000 anesthetics with a zero mortality rate. *Nagelhout JJ, Plaus K. Nurse Anesthesia. 4th ed. Philadelphia, PA: WB Saunders Company; 2010: 3.*
Joseph Clover is credited as being the first Englishman to perform what maneuver?	Joseph Clover was the first Englishman to employ and promote the jaw-thrust maneuver to open the airway during anesthesia. He also published a landmark case in 1877 in which he described the use of a cannula to perform an emergency cricothyrotomy on a patient in which the jaw-thrust maneuver was ineffective due to a pharyngeal tumor. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 7.*
Who is credited with first describing the technique of 'refridgeration anesthesia' whereby snow is placed in parallel rows along the surgical plane prior to incision?	Marco Aurelio Severino described in the 17th century the technique of applying snow along the lines of the surgical plane to produce anesthesia prior to incision. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 4.*
Who promulgated hypnosis as a form of anesthesia?	Anton Mesmer, Charles Dupotet, and Jules Cloquet all promoted hypnosis (mesmerism) as a form of anesthesia, despite the fact that it had been discredited by the French Academy of Science. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 4.*

Prodigy Anesthesia Quick Review

History of Anesthesia

Who was the first person to use chloroform for the relief of labor pain?	Dissatisfied with the effects of ether, James Young Simpson was the first person to use chloroform for the relief of labor pain. John Snow further popularized chloroform by administering to Queen Victoria during the delivery of her last two children. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 6-7.*
Who is credited with developing the first direct-view laryngoscope?	Alfred Kirstein is credited with developing the first direct-view laryngoscope. Although it was not used by anesthesiologists at the time, it became the predecessor for all laryngoscopes. Prior to his invention, intubation was performed blindly and often traumatically. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 8.*
Who is credited with the development of the cuffed endotracheal tube?	Arthur Guedel developed the cuffed endotracheal tube and demonstrated that the oropharynx could be filled with water while the patient was intubated without compromising the airway if the airway was sealed with his cuffed tube. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 8.*
What was the first drug to be used as a local anesthetic?	Cocaine, the first local anesthetic, was initially applied topically. It was isolated from the plant Erythroxylum coca in 1856 and used to produce anesthesia of the corneal surface in 1884 by Carl Koller. In 1885, it was first injected into nerve trunks. *Miller RD, Pardo MC. Basics of Anesthesia. 6th ed. Philadelphia, PA: Elsevier Saunders; 2011: 6.*
Who performed the first true spinal anesthetic?	Although Leonard Corning performed neuraxial blocks as early as 1885, his technique was haphazard and unsafe. The first true injection in the cerebrospinal fluid was performed in 1899 by August Bier. *Miller RD, Pardo MC. Basics of Anesthesia. 6th ed. Philadelphia, PA: Elsevier Saunders; 2011: 6.*
Who was the first person to synthesize ether?	Valerius Cordus first prepared ether in 1540 through a chemical reaction between sulfuric acid and ethyl alcohol. *Butterworth JF, Mackey DC, Wasnick JD. Morgan & Mikhail's Clinical Anesthesiology. 5th ed. New York, NY: McGraw-Hill; 2013: 2.*
Who is the earliest known nurse anesthetist?	Sister M. Bernard practiced at St. Vincent's hospital in Erie, Pennsylvania and is known as the first nurse anesthetist. *Nagelhout JJ, Plaus K. Nurse Anesthesia. 4th ed. Philadelphia, PA: WB Saunders Company; 2010: 34-35.*

Prodigy Anesthesia Quick Review

History of Anesthesia

Who first coined the term 'laughing gas' for nitrous oxide?	Humphry Davy performed numerous experiments on the effects of nitrous oxide and published his results in a 580-page book entitled, 'Nitrous Oxide'. He is the first to use the term 'laughing gas'. *Barash PG, Cullen BF, Stoelting RK, Cahalan MK, Stock MC, Ortega R. Clinical Anesthesia. 7th ed. Philadelphia, PA: Lippincott Williams and Wilkins; 2013: 5.*
Who performs the accreditation of nurse anesthesia schools?	The AANA began the accreditation process in 1952 and was recognized by the federal government as such in 1955. In 1975, however, the Council on Accreditation of Nurse Anesthesia Educational Programs (COA), an outgrowth of the AANA, was designated as the organization responsible for the accreditation process. *Nagelhout JJ, Plaus K. Nurse Anesthesia. 4th ed. Philadelphia, PA: WB Saunders Company; 2010: 36.*
What persons were criticized for proposing the theory that the high maternal mortality rate associated with puerperal fever could be reduced if medical providers would wash their hands between patients?	Oliver Wendell Holmes and Ignaz Semmelweiss were both widely criticized for proposing that hand-washing could prevent the spread of infection in parturients. *Nagelhout JJ, Plaus K. Nurse Anesthesia. 4th ed. Philadelphia, PA: WB Saunders Company; 2010: 1-3.*
